VII International Scientific Conference

**“LYOTROPIC LIQUID CRYSTALS AND
NANOMATERIALS”**

&

5th Chistyakov’s Readings
**“ACHIEVEMENTS IN THERMOTROPIC
LIQUID CRYSTALS RESEARCH”**

Ivanovo, Russia
September 22 – 25, 2009

During the last 25 years the International conferences on lyotropic liquid crystals as well as Chistyakov's readings are regularly held at the Ivanovo State University. The interest to nanomaterials and nanotechnologies has significantly encouraged attention to liquid crystals, making it necessary to generalize the last year's achievements in theory and practical application of the advanced nanomaterials.

Conference Program

The program of the conference will include:

- ✓ Plenary Lectures (max 30 minutes);
- ✓ Section Reports (max 15 minutes);
- ✓ Posters Session (90 cm high × 60 cm wide).

The working languages are **Russian** and **English**.

Conference Topics are:

- Micellar and disperse systems
- Lyotropic mesomorphism of low-molecular systems and polymers
- Lyotropic liquid crystals in biological systems
- Synthesis, structure and properties of thermotropic mesogens
- Theory of lyotropic and thermotropic mesomorphism
- Application of liquid crystals, compositional- and nanomaterials

Deadline

May 15, 2009 – submission of abstracts and registration forms.

May 15, 2009 – registration fee

Publishing:

The proceedings of the conference will be published in a special issue of "Liquid Crystals and their Practical Application", 2010. This journal is registered in the Federal Service inspecting the legislation observance in the mass media and cultural heritage protection, Registration Certificate PI № FS77-21092, May 19, 2005. ISSN 1991 – 3966.

Organization:

Chairpersons: RAS Corresponding Member, Prof. **V. Shibaev**
Director of NRI, Prof. **N. Usoltseva**

Scientific Secretary Vice-director of NRI Dr. **V. Bykova**
